

I oppose the weakening of Indiana's Telephone Privacy law which is subject to an upcoming proceeding before the Federal Communications Commission (FCC). The Consumer Bankers Association is attempting to impose the federal "established business relationship"

exemption on Indiana consumers. I do not want businesses that I currently have a relationship with to call me as often as they want to solicit other business from me. Any unsolicited calls violate my privacy and the proposal would establish unfair access to the businesses I use and put competitors at a disadvantage. I have rights to privacy and businesses should have equal opportunity.
